Re: Temporary Donation of Surface Water Right Certificate S2-SWC4436 to the Washington State Trust Water Right Program

Dear Mr. Hoey:

In response to your letter of September 3, 2009 requesting to extend the temporary donation to the Trust Water Right Program Water Right Certificate S2-SWC4436 to October 1, 2010, your request is hereby granted. **This temporary donation will expire on October 1, 2010, unless otherwise extended by the water right owner.**

The parent water right, Surface Water Certificate N. 4436, authorized the withdrawal of .20 cubic feet per second for the irrigation of 20 acres during the irrigation season. The recorded place of use is located within the NE $\frac{1}{4}$ of the SW $\frac{1}{4}$ of the SW $\frac{1}{4}$ of Section 8, Township 17 North, Range 1 E.W.M.

RCW 90.42.080 provides in part that the total of any portion of the water right remaining with the donor plus the donated portion of the water right may not exceed the extent to which the water right was exercised during the five years before the donation.

In accordance with RCW 90.42.040(6), RCW 90.14.140(h), and RCW 90.14.215, a water right is not subject to relinquishment while it is managed within the Trust Water Right Program.

Ecology's acceptance of the donated water right into the Trust Water Right Program is not evidence of the validity or quantity of the water right. When the period of the trust ends, the water right will revert back to the water right holder or landowner in the full quantity accepted into the trust water program and for the original purposes.

If, prior to expiration of this temporary donation, you would like to extend the temporary donation, please send us a written request. Also, if you wish to modify any terms of your donation, your letter must include the new terms. Ecology will review your request and any new or modified terms and conditions and will notify you whether the donation can be extended.

You have a right to appeal this decision. To appeal this you must:
